Wireless Printing @ Your Library!

Mac OS using the Safari browser 🧭 **or** 🧭

Create. Connect. Change.

SPARTANBURG COUNTY
PUBLIC LIBRARIES

## Connect to SCPL Wireless Network

From the menu bar (top of screen), click 📶 > click **LIBRARY**.

Download Software and Install Print Client

1. Double click **Safari** 🧭 or 🧭, type http://spartanburglibraries.org in the URL bar > click **USING THE LIBRARY** > click **Computer Use** > **Wi-Fi Network and Wireless Printing**.

2. Under *Wireless Printing*, click **Download MAC Software** > open the **Finder** 🙂.

3. From left side of *Finder*, click **Downloads**.

   o Double click on *Name*: 📦 **Mac-Print-Control** *Kind*: **Installer Package**.

   o If you see the message, "*Mac-Print-Control" can't be opened because it is from an unidentified developer*: press the **Control** key and then click **Mac-Print-Control** > click **Open** > **Open**.

4. Follow prompts to install the software (this may take a few minutes).

   o On pop up: *Installer is trying…* enter your Mac *Password* > click **Install Software**.

5. A pop up will appear stating: *The installation was successful.* Click **Close**.

Start Wireless Printing after Initial Download

1. Open the **Finder** 🙂.

2. From left side of *Finder*, click **Applications** > double click **PrintControl**.

   o Enter your SCPL library card number > click **OK**.

3. The *PrintControl* box should open automatically (pictured to the right).

4. When you print, click **WirelessPrinter** from the *Printer* dropdown, then click **Print**.

5. You will see a notification flash briefly when your document has been sent:

   o *Job # upload success.*

6. Files can then be printed at any Print Release Station across the SCPL system.
