Wireless Printing @ Your Library!

Mac OS using the Chrome browser

Create. Connect. Change.

SPARTANBURG COUNTY
PUBLIC LIBRARIES

Connect to SCPL Wireless Network

From the menu bar (top of screen), click   > click **LIBRARY**.

Download Software and Install Print Client

1. Double click **Chrome** , type http://spartanburglibraries.org in the URL bar > click **USING THE LIBRARY** > click **Computer Use** > **Wi-Fi Network and Wireless Printing**.
2. Under *Wireless Printing*, click **Download MAC Software** > open the **Finder** .
3. From left side of *Finder*, click **Downloads**.
   - Double click on *Name:* Mac-Print-Control *Kind:* **Installer Package**.
   - If you see the message, "*Mac-Print-Control" can't be opened because it is from an unidentified developer:* press the **Control** key and then click **Mac-Print-Control** > click **Open** > **Open**.
4. Follow prompts to install the software (this may take a few minutes).
   - On pop up: *Installer is trying…* enter your Mac *Password* > click **Install Software.**
5. A pop up will appear stating: *The installation was successful.* Click **Close.**

Start Wireless Printing after Initial Download

1. Open the **Finder** .
2. From left side of *Finder*, click **Applications** > double click **PrintControl**.
   - Enter your SCPL library card number > click **OK**.
3. The *PrintControl* box should open automatically (pictured to the right).
4. When you print, click **WirelessPrinter** from the *Printer* dropdown > click **Print**.
5. You will see a notification flash briefly when your document has been sent:
   - *Job # upload success.*
6. Files can then be printed at any Print Release Station across the SCPL system.

Uninstall Wireless Printing Software

Open **Finder** (not in full screen view) > click **Applications** > drag **PrintControl** to **Trash**.
