Stars of the Pharaohs

Travel to ancient Egypt to see how science was used to tell time, make a workable calendar, and align huge buildings. You'll learn about the connection the ancient Egyptians felt with the stars and various astronomical phenomena and see some of the most spectacular temples and tombs of the ancient world recreated in their original splendor. Produced by E&S Digital Theater. Doors close promptly at showtime. If you need to leave for any reason, you are welcome to do so, but you will not be able to reenter the theater until the show is finished. Food and drinks are not allowed. Electronic devices should be set to silent. Target audience 9-adult. Loud sounds and bright, flashing lights may affect some audience members. Registration opens two weeks before the show and is required for this free show. The entire presentation runs 45-50 minutes. Visit our website for showtimes and to register.
